# Feminism and Homosexuality

---

- Share the same view of sex
- Share the same anti-nature dualistic view of the person and the body
- Share the same motivation to rebel against reality in the name of liberty
- Both open the door to transgenderism and the sexualization of children

# Tips on Transgenderism

---

- This is not a biological reality. Do not speak as if it is one.
  - It is the ultimate anti-parent, anti-family, anti-person Satanic cult. Treat it as such.
- Distinguish between autogynephilia in older males and various psychological, spiritual, and social issues in young girls.
  - Autism, peer pressure, porn, trauma (same issues as homosexuality, btw)
- Realize this is a top-down movement being pushed by ideologues and profiteers, not a grass roots uprising of oppressed freedom fighters.
- Do not trust any education, counseling, or medical institution on this issue.

# Reversing the Revolution

---

- Be careful not to connect our desire for strong families and opposition to sexual immorality to unjust causes.
- Present a positive case, not just a negative one.
- Live the incarnation.
